

HCD500-2J

Semi-Automatic Welding Carriage

侧吸式自动焊机
行走速度: 39-990mm/min
输入电压: DC 24V
出厂编号: 2213229
出厂日期: 20220920

The HCD500-2J is a semi-automatic welding carriage that can travel and weld on the workpiece by side-suction, and it is especially suitable for welding operations with narrow workpiece base plates, or with pre-drilled holes.

TECHNICAL DATA

Model	HCD500-2J
Weight	7.2KG
Input Voltage	DC24V 3AH Lithium Battery
Drive Mode	Geared chain drive, four-wheel
Traction Power	±40KG
Travel Speed	35-990(mm/min)
Tracking Method	Guide wheel profiling tracking
Vertical Adjustment	100mm
Horizontal Adjustment	40mm
X-axis Direction of Torch	±15°
Y-axis Direction of Torch	360°
Ribbed Plate Height	≥100mm
Dimensions (L*W*H)	375*295*270mm
